

Max-E-Pro®

Pool/Spa Pumps

by Sta-Rite®

Strong performer. Quiet leader.

Over 30 years ago, Sta-Rite introduced the first thermoplastic swimming pool pump. Those innovations continue today from the industry's top builder of high-quality pumps. The Max-E-Pro pump is Sta-Rite's premier pump and is featured in many showcase pool installations. It didn't get there by chance. Pool professionals prefer the Max-E-Pro pump for its powerful, efficient performance and extremely quiet operation.

- Precision-fit internal components and a specially designed sound-dampening base make the Max-E-Pro pump extremely quiet. So your piece of paradise remains peaceful!

- High-efficiency motor and superior hydraulic design deliver effortless performance, energy savings and extend the life of the pump.
- The engineers were listening when pool owners said low maintenance was important. They designed an extra-large trap to hold more dirt and a "clear-view" lid so you can check for debris without lifting a finger.
- Rugged weather-resistant construction and a motor rated for continuous duty make the Max-E-Pro pump a sure bet for years of trouble-free operation.

If you prefer the strong, silent type, put the Sta-Rite Max-E-Pro pump to work for you.

Max-E-Pro[®] Pool/Spa Pumps

A breeze to service

Quick-disconnect plumbing unions mean faster disassembly – service guys love them!

Efficiency expert

High-efficiency motor saves on electricity. Also available with standard motor

So easy, so quick

A single twist-and-lift motion opens the Quick-Lock™ Trap Lid – it's that fast!

Filled to capacity

6" extra-large-capacity trap collects more debris, which means a lot less maintenance

Engineering marvel

Innovative hydraulic design moves more water with less effort, which reduces operating costs

Nothing but the best

The Sta-Rite[®] reputation for top-of-the-line equipment is unparalleled in the industry. And we got there by gaining the confidence of professional pool builders and ultimately satisfying pool owners. Every feature of the Max-E-Pro pump has been engineered to answer the needs of today's savvy buyer: high efficiency, low maintenance and reliability. The Max-E-Pro pump nails it on all counts.

Save money on energy costs

Superior flow dynamics effortlessly move more water. Combined with the energy-efficient motor, the Max-E-Pro pump is the ultimate energy-saver.

A lot less maintenance

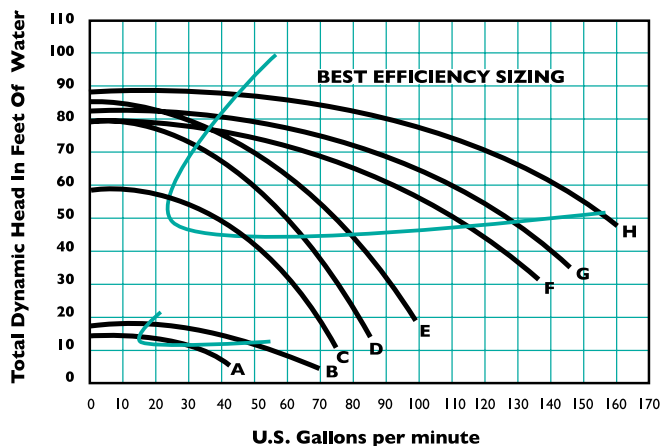

When cleaning is required, an easy twist of the wrist gives you access to the ultra-sized strainer basket. Simply empty the basket, re-attach the Quick-Lock trap lid and twist it one click to the right.

Built for the long-run

Only the finest materials are used to build lasting quality into every Max-E-Pro pump. On the outside, Sta-Rite's Dura-Glas™ Composite Resin weathers temperature extremes. On the inside, the shaft seal is constructed with Fluoroelastomer Rubber and the impeller is made with PPO resin to stand tough against harsh chemicals.

Performance Curves

Available in 1/2 to 3HP, standard and high-efficiency motors, and up-rated single- and two-speed models.

KEY

- A. 1/2 HP Low Speed
- B. 2 HP Low Speed
- C. 1/2 HP High Speed
- D. 3/4 HP High Speed
- E. 1 HP High Speed
- F. 1 1/2 HP High Speed
- G. 2 1/2 HP High Speed
- H. 3 HP High Speed

One-year limited warranty. See warranty for details.
