

Max-E-Pro™

Pool/Spa Pumps

by Sta-Rite®

Strong performer. Quiet leader.

Over 30 years ago, Sta-Rite introduced the first thermo-plastic swimming pool pump. Those innovations continue today from the industry's top builder of high-quality pumps. The Max-E-Pro™ is Sta-Rite's premier pump and is featured in many showcase pool installations. It didn't get there by chance. Pool professionals prefer the Max-E-Pro for its powerful, efficient performance and extremely quiet operation.

- Precision-fit internal components and a specially designed sound-dampening base make the Max-E-Pro extremely quiet. So your piece of paradise remains peaceful!

- High-efficiency motor (optional) and superior hydraulic design deliver effortless performance, energy savings, and extend the life of the pump.
- The engineers were listening when pool owners said low maintenance was important. They designed an extra-large trap to hold more dirt, and a "clear-view" lid so you can check for debris without lifting a finger.
- Rugged weather-resistant construction and a motor rated for continuous duty make the Max-E-Pro a sure bet for years of trouble-free operation.

If you prefer the strong, silent type, put the Sta-Rite Max-E-Pro pump to work for you.

Max-E-Pro™ Pool/Spa Pumps

A breeze to service

Quick-disconnect plumbing unions mean faster disassembly – service guys love them!

Efficiency expert

High-efficiency motor saves on electricity. Also available with standard motor.

So easy, so quick

A single twist-and-lift motion opens the Quick-Lock™ trap lid – it's that fast!

Filled to capacity

6" extra-large-capacity trap collects more debris, which means a lot less maintenance.

Engineering marvel

Innovative hydraulic design moves more water with less effort, which reduces operating costs.

Nothing but the best

Sta-Rite's reputation for top-of-the-line equipment is unparalleled in the industry. And we got there by gaining the confidence of professional pool builders and ultimately satisfying pool owners. Every feature of the Max-E-Pro™ has been engineered to answer the needs of today's savvy buyer: high efficiency, low maintenance and reliability. The Max-E-Pro nails it on all counts.

Save money on energy costs

Superior flow dynamics effortlessly move more water. Combined with the energy-efficient motor, the Max-E-Pro is the ultimate energy-saver.

A lot less maintenance

When cleaning is required, an easy twist of the wrist gives you access to the ultra-sized strainer basket.

Simply empty the basket, re-attach the Quick-Lock™ trap lid and twist it one click to the right.

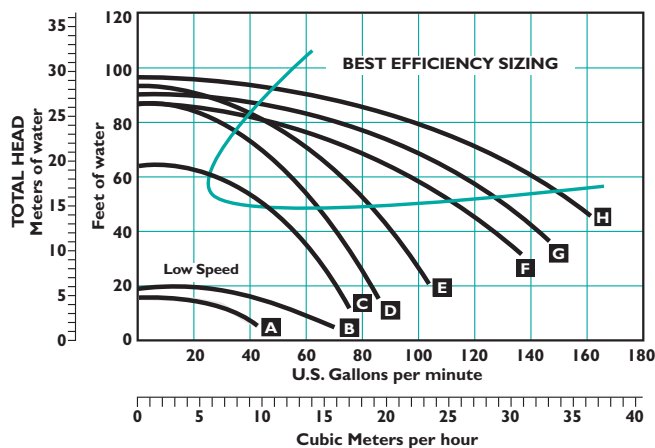

Built for the long-run

Only the finest materials are used to build lasting quality into every Max-E-Pro. On the outside, Sta-Rite's exclusive Dura-Glas® composite resin weathers temperature extremes. On the inside, we've used a Vitor® shaft seal and a Noryl® impeller to stand tough against harsh chemicals.

Performance Curves

Available in 1/2 to 3HP, standard and high-efficiency motors, and up-rated single- and two-speed models.
